Secretary Crawford Presented with a Gald Watch by the Exhibitors-The Story of the Pretty Girl and the Egg-A Long Lie of Special Prince Awarded by the Judges The poultry show in the Madison Square Garden came to an end last night. The birds were a bit tired after their four days' confinement and were glad when they were put into crates to be carried back to their homes. The exhibition has been a great success in every way, and the public has patronized it better than ever before There were many sales during the day, good

prices prevailing in nearly every instance. The exhibitors clubbed together and presented H. V. Crawford, the Secretary of the association, with a fine gold watch, in appreciation of his untiring energy in behalf of the show. Several appropriate speeches were made and Secre-tary Crawford responded with some enthusiastic remarks. The eggs in the incubators were all hatched before evening came on, and those in authority said that 15,000 young chicks had come into the world since the exhibition opened. The talking macaw from South America acted so queerly that his care was constantly surrounded. He stood on one foot continually and swaved from side to side. His conversation was confined to a sort of rattle in his throat, and somebody said he was under the influence of strong drink. No inducements could be offered to make him talk, even in Spanish, and his admirers soon lost all interest in his welfare.

The ladies continued to be the most enthusiastle visitors in the Garden. They were not content to look at the pets, but constantly used hat plus, lead pencils, and other impromptu implements to stir the birds up to a sense of danger. One pretty girl found an egg in a cage and proceeded to extract it with a hairpin beni into a hook. When she got it out she bashfully asked an attendant:

"Can I have this egg, air?" Why, certainly, madam," was the reply;

but be eareful where you put it!" The admonition was scarcely heeded, for the girl put the egg in her pocket and sat down on a bench. Suddenly there was a cry of horror, which was followed by a general denunciation which was followed by a general denunciation of hens, chickens, eggs, poultry shows, and attendants. The egg had got in some bad work, and the girl went away utterly miserable. The judges spent the entire day in awarding the special prizes. It was a difficult task, but there was little or no kicking when the results were announced. The principal winners follow: Silver cup, valued at \$100, for best display of Plymouth Hocks, won by E. F. Thompson.

FRED HOEY AT MONTE CARLO. He Makes a Good Start by Dividing the

Priz de Diane with M. Lo. Fred Hoey, the well-known American wing shot, who captured a number of sweeps at the Gun Club's grounds at Notting Hill on Jan. 18, arrived at Monte Carlo on Monday. Jan. 21, and on the following Wednesday he made his debut in the Prix De Diane. To the surprise of the foreign contingent he killed his eight birds straight and divided first and second prizes with M. Lo. The American contingent were de-lighted at his victory, as he defeated fifty-two of the best shots from England, France, Russia, and Italy. The Field, in speaking of the contest,

The wind was blowing half a gale when the shooting for the Prix de Diane began this mornshooting for the Prix de Diene began this morning, and, as there was a bright sun shining in the faces of the competitors, it is not surprising that the number of kills was not so large as usual. As has been the case in nearly all the preliminary competitions, the first and second money was divided, Mr. Fred Hoey, who has only arrived within the last day or two, sharing the prizes with M. Lo. There was, however, a good fight for third prize among Mr. Roberts, Count Yoss, Chevaller de Knyff, and Signor Riva, all four of whom had missed their eighth pigeon, and after the third round in the ties signor Riva was found to be the only one who had killed all three, so that he became entitled to the third prize. New Rules for the P. B. A. R. A.

The committee of the Passaic River Amateur Rowing Association, appointed at its last meeting to consider amendments to the constitution and by-laws of the association, held a meeting Friday night at 7 Commerce street, Newark. The following members were present: Fred R.

Fortmeyer, Passaio Boat Club, Chairman Peter Young Eureka Boat Club, Chairman; Peter Young Eureka Boat Club; O. E. Thurber, G. E. Giford, and T. F. Keer, Triton Boat Club; C. F. Hancock, Institute Boat Club, M. S. Quigley of the Newark Rowing Club was the only absentee.

quigley of the Newark Rowing Club was the only absentee.

The racing rules of the association were changed in accordance with the recommendations of the conference of delegates from the rowing associations of the country held in this city last month, and the definitions of rowing classes approved by that conference were adopted. The committee will report to the association at its next meeting on Feb. 18, and the new rules will undoubtedly be approved without opposition. The Passaic Association will be the first of the provincial rowing associations to adopt the new classification. The Harlem Regatta Association will probably follow by adopting them at its next meeting on March 4.

The crews of Columbia College are doing good work, and before long will probably be rowing the whole stroke. The 'varsity men have been reduced to the lowest number now, and all men who are left will either hold seats in the boat or substitutes. They number twelve, and are follows: Carter, '9d, M.; Snyder, '97, L.; lidy, '97, P. and S.; Fish, '95, A.; Prentice, 'A. (captain): MacGregor, '96, M.; Norton, L.; Irving, '96, A.; Pierrepont, '97, A.; lee, '96, L.; Pressprich, '97, A., and Putnam, 'A. T. A. THE SITUATION IN VIRGINIA.

The Latest Gossip is Connection with Rac-ing at the Capital,

WASHINGTON, Feb. 2 .- J. M. Hill, theprincipal stockholder of the Virginia Jockey Club, an-nounced positively to-day that there would be no change in the management of the coming meeting which will be held under the rules of the Jockey Club, provided the application now be-fore that body is granted, as there is no doubt it will be. H. D. McIntyre will continue to act as Secretary.

minion Jockey Club as to dates, Mr. Hill said no definite arrangement had yet been entered into. He hoped a consultation could be held and the matter satisfactorily disposed of within a day or two, expressing himself as heartily in favor of an amicable settlement. The Old Dominion people are equally desirous of reaching a de cision, and the only possible hitch that can ocour will be over the question whether the two clubs will race on alternate days or weeks.

There were not many horsemen left in town to-day, the majority of them having left for New York, Philadelphia, and elsewhere. Those

New York, Philadelphia, and elsewhere. Those who did remain were at a loss what to do with themselves, and they will have hard work killing time until the meeting opens at Arlington next Wednesday. Printed announcements that a foreign book was in operation at Brookiya, outside Baltimore, were scattered around the hotels, but very few patrons were secured from this city. Over at Alexander Island track things present a rather desolate appearance.

A number of horses, however, were at work on the track, being prepared for the Arlington meeting. It is probable that less than a hundred horses will go from the island there as soon as stable accommodations are provided: Castles, 3 horses; Rich Creek, 2; W. Falahee, 3; Philadelphia Stable, 5; Downing, 4; Mahoney, 2; R. Baker, 1; Columbia Stable, 2; M. Thompson, 1; McCauley, 1; J. Crokor, 2; M. Kelly, 3; W. Collina, 3; J. B. Gleason, 3; G. Haman, 3; Thorpe, 2; V. Hollar, 4; W. Phillips, 1; P. F. MacManus, 2; W. Beckett, 6; Suffolk, 2; A. B. Stansbury, 4.

ENGLISHMEN RESPECT OUR HORSES Think that Some Good Ones Are in the Bwyer-Croker Lot.

Many interesting details concerning the horses shipped to England by Mesers. Croker and Dwyer reached here in yesterday's foreign mails. In addition to particulars already received by cable, London Sporting Life of Jan. 26 has the following: "It is just sixteen years since the Yankees sent

us a batch of thoroughbreds, whose achievements will long live in the memories of those who witnessed their doings on the different race courses of England. The first to claim the attention of the English sporting men was the brown golding Parole, who carried the cherry and black of Mr. Pierre Lorillard. This little brown gelding, Parole, who carried the cherry and black of Mr. Pierre Lorillard. This little six-year-old animal won three of the principal handicap events of 1879. They were the City and Suburban, when carrying 8 stone 7 pounds; the Newmarket Handicap, carrying 8 stone 4 pounds; the Great Metropolitan, carrying 8 stone 12 pounds, and the gold cup at Epsom.

"The year afterward (in 1880) the American two-year-old froquois appeared on the scene and carried off the Chesterfield Stakes. This animal was also the property of Mr. Pierre Lorillard. It was as a three-year-old, however, that Iroquois shone so brilliantly. During the season of 1881 the American won the Derby and the St. Leger. He also won the Prince of Wales Stakes at Ascot with 8 stone 5 pounds up.

"It was in this same year that the white and blue spots of James R. Keene were seen on the English turf. His horse, Foxhall, as a three-year-old, won the Cesarewitca, with 7 stone 12 pounds in the saddle. He carried two pounds more in the Cambridgeshire and won. The Grand Prix de Paris was also captured by Foxhall, and in 1882, as a four-year-old, he carried off the gold cup at Asoot with nine stone on his back.

"This presentment ought to convince Eng-

on the gold cup at Asoct with the stone on his back.

"This presentment ought to convince Englishmen that the Yankees never send a horse to this country unless they are morally sure that they have a good one—or what they term a world beater. The consignment of twenty-one horses which Mr. Richard Croker and Michael F. Dwyer have sent us may not all be champions, but it is only fair to presume that there is a Parole, a Foxball, or an Iroquois among the parcel."

M'CUR'S SUSPICIOUS RIDING.

on Panway.

NEW ORLEANS, Feb. 2.- The forty-ninth day of the winter meeting was a bad one for the talent, as No Remarks, in the last race, was the only favorite that landed the money safe for the talent. The weather was clear and cool and the sun shone beautifully, but the track was very muddy and it was a case of slushing it from start to finish in each event. Like the preceding days of the meeting, the card of entries was handed over to the scratcher, and when that individual got through with it he had scratched sixteen horses out of the five races.

Jockey Baugh was fined \$15 at the post in the third race and \$10 for dismounting before saluting the judge. Jockey McCue was suspended indefinitely for his work on Panway in the fifth race. Panway led by a length to the stretch, where he was overtaken and passed by No Remarks. Summaries:

OPPOSE WINTER RACING.

Baltimore Horsemen Do Not Want the Meeting at the Arlington Track, BALTIMORE, Feb. 2.-The promoters of winter racing at the Arlington race track are encountering a very stiff opposition from Baltimore horsemen. The aunouncement that a meeting would be held here beginning Feb. 6, under the auspices of the Brighton Beach management, unexpected and in many quarters lieved. There are no Haltimoreans financially

lieved. There are no Haltimoreans financially interested in the venture, which is said to be backed by George A. Engeman, Max Frank, and T. W. French.

At a meeting of the directors of the Pimlico Driving Club last night a resolution was adopted declining to rent its stables to the Arlington Association, and a subsequent resolution condemned the proposed winter race meeting. The Gentlemen's Driving Park has also refused to hid the scheme in any way.

The managers of the new association are determined, however, to hold the meeting, and have ordered a number of additional stalls built at the Arlington track, and it is claimed that these, with those that can be hired in the neighborhood, will be sufficient to house 300 horses.

The delay in making needful changes at the track has caused the officers to announce a postponement of the opening race day from the 6th to the 9th of February. Instead of twenty days racing, as first agreed upon, there will be only seventeen race days.

FRED BARRETT IS DEAD.

Me Was the Leading English Rider in 1888, when He Won the Derby with Ayrabire. Fred Barrett, the famous English rider, is dead. He headed the list of winning jockeys in 1888, when he won the Derby with the Duke of Portiand's Ayrshire.

The year following he won the St. Leger with Donovan and the Cambridgeshire with Ali-cante. He then grew too stout for active duty in the saddle and has seldom ridden since.

NEW BRUNSWICK, N. J., Feb. 2,-The indications are for a very enthusiastic revival of ath-letics at Rutgers College this spring. There is an abundance of good material to make a good baseball nine, and the candidates are developing rapidly in the baseball cage in the Baltan tine gymnasium. Manager Roome is having considerable success in arranging favorable dates. Thus far he has scheduled games with West Point, Wesleyan, Colgate, Hobart, and the West End team of Somerville.

A departure which has been received enthusiastically among the student body is the improve ment of Neilson Field. At a recent meeting of the Athletic Association it was decided to spend \$600 on a new quarter-mile track if the students would contribute one-half the expense. The matter was canvassed at chapel a few mornings ago and the amount was soon raised. Beside the new track, Frank L. Janeway, an alumnus the new track, Frank L. Janeway, an alumnus who takes a great interest in athletics, has agreed to spend considerable money in sodding the field, improving the diamond, and furnishing apparatus for outdoor athletic events.

An invitation has been extended to Lehigh to join the league of Lafayette, Stevens, and Rutgers. Games are held in the spring and fall, and the competition for the honors has been very brisk. Lehigh has given no answer as yet.

The fine bowling alleys in the Ballantine gymnasium have created a new interest in that sport, and the alleys are busy night and day. It has become the fashion for the students to invite their young women friends from the town to use the alleys on certain evenings each week.

Athletics at Williams College

WILLIAMSTOWN, Mass., Feb. 2.-The fact that President Eliot of Harvard so severely de-nounced college football in his recent report has caused considerable comment among the students here. President Carter, when interviewed on the matter of college athletics, refused to make any statement further than to say that his views of last year were unchanged, He stated that inasmuch as President Eliot was thoroughly acquainted with football his statement was worthy of attention, and that the po sition as set forth in the report coincided more

sition as set forth in the report coincided more or less with his own views on the matter. It is not likely that President Carpr will take any action on the question of obligge athletics at Williams for a while at least.

The athletic association has decided not to send any representatives to the B. A. C. games this year, owing to the expense, inasmuch as the association is already sufficiently indebted.

Capt. Draper will call together all the candidates for the baseball team this week, and regular training will begin shortly.

Manager Mosely has decided not to take the baseball team on a spring trip, but during a part of the Easter recess a short trip will be taken and games played with Yale, Brown, and Wesleyan.

College sentiment is daily growing more antagonistic to the awarding of the '94 football pennant to Dartmouth, and it is not unlikely that formal action on the part of the student body will be taken and the delegates instructed accordingly.

Prospects Bright for an Inter-State
Amateur Billiard Tournament,

William Mussey, the Chicago billiard promoter, was in a happy frame of mind yesterday. He has been in town for several days trying to arrange an amateur tournament that will bring together the best talent in Chicago and this city. He had an interview with Wilson Foss of Haverstraw, a star amateur of wealth and social position, and also with A. F. Troescher, the Eastern representative of the manufacturers. Mr. Troescher told him that the manufacturers would aid his enterprise to the best of their ability, and Foss said that he, too, would use his influence to bring about an inter-State tourney of the best representatives of amateur skill.

Foss said he would play the stars of amateur-dom in this city and Chicago. These were the stars he named: Martin Mullen of Cleveland, Weyman C. McCreery of St. Louis. Clement Ellison of Chicago. Charles E. Norris, Capt. A. C. Anson of the Chicago Baseball Club, E. L. Milburn, and M. C. Chamter, all the latter of Chicago. Foss stipulated, too, that certain New York amateurs should take part. If the enterprise succeeds it will be a great thing for billiards, and the best thing about it is that it looks as if it would prosper. would aid his enterprise to the best of their abil-

Billiardist Fournil Starts for Home. Edward Fournil, the French billiard star, who came to America with the expectation of getting a chance to play the American stars in public, and was disappointed, sailed for home yesterday on the French steamer. He was very happy at the prospect of getting back to Paris. Fournil did not quit a loser by his American venture despite the fact that he met with dis-

wenture despite the fact that he met with disappointment.

He made the acquaintance of some good fellows who appreciated billiards, and he had a chance of playing billiards with Maurice Daly, Thomas Gallagher, and Wilson Foss, a gentieman amsteur. He has had a rattling good time, likes America, and he made about \$2,000 in cash. There is no reason, therefore, why he shouldn't go home happy. Maurice Daly bid him good-by in the heartlest style.

Yale Gymnastic Association Receive Valuable Prizes.

New HAVEN, Feb. 2 .- Arthur M. Dodge of New York city, of the class of '54, has presented three valuable silver loving cups to the Yale Gymnastic Association. They will be awarded to the college champions of the side horse, the flying rings, and parallel bars. They will be competed for at the next meeting of the Gymnastic Association.

J. Edward Heaton of this city has presented a coatly silver plaque to the Gymnastic Association. It will got the winner of the title of college gymnast at the close of the scason. Mr. Heaton has also denated \$100 to the Gymnastic library. NEW RECORDS ON SKATES.

THE WORLD'S AMATEUR TIME BEATEN FOR ONE AND THREE MILES.

John S. Johnson of Minneapolis Covers Mile in 2:48 2-5, and John Nellson of the Same City Shates Three Miles in 8:48 2-5 Johnson Also Captures the Five-mite Event at Cauada's Champtonehtp Ruces

MONTREAL, Feb. 2.-Two world's records were the Amateur Skating Association of Canada, which were held here this afternoon in the presence of between 5,000 and 6,000 spectators. J. S. Johnson, the Minneapolis wonder, broke his own record of 2:45 3-5 for one mile, finishing in 2:42 2-5.

In the three-mile race John Neilson of Minne apolis covered the distance in 8:48 2-5, the previous record being 0:05, against time, by Johnson. The meeting was the most successful one in the history of the association.

Johnson entered for the 220-yard race, but after winning one of the heats did not enter the final, which resulted in a close race between Harley Davidson of Toronto and McCullough of Winnipeg, the former winning in 21 seconds. Davidson also won the half-mile race, with McCullough second; time, 1:24 1-5. Johnson, who was down on the card, did not compete in this race.

The one-mile race was an exciting one. John son, Olaf Rudd of Minneapolis, John Neilson of Minneapolis, Mosher of Storm King, N. Y.; Harley Davidson of Toronto, and H. Hulse of Toronto started. Neilson, whose splendid work was one of the features of the meet, took the ead from the start, followed by Johnson and Mosher, McCullough being in the rear. This order was maintained until the last lap,

when Johnson, who had been holding back, closed up on Neilson and crossed the line an easy winner in 2:42 2-5, a new world's record. In the three-mile race Neilson, Davidson, Olaf Rudd of Minneapolis, nor Howard Mosher took part. Nellson again made a fine showing. He went off at a quick gait, leading Rudd, who came close behind. Nellson finished in 8:48 2-5, a new world's record.

The race of the day was the five-mile one, in which Johnson, Rudd, Neilson, and McCullough started. The skaters went off at a recordbreaking gait. McCullough leading, with Neilson, Johnson, and Rudd close behind. The gait was too fast for McCullough, and he fell behind

Neilson then set the pace, and led until the last lap of the fifth mile, when Johnson, who was evidently just holding himself, forged ahead, and passed the winning line in 15:11 1-5.

There was much disappointment, owing to the failure of Joe Donoghue to show up. Jim Donoghue was present, and entered in one of the races; but he only took fourth place, not being in it with Johnson and the others.

WANTS TO BEAT DONOGHUE'S TIME.

New Record for 100 Miles, REDBANK, N. J., Feb. 2.-Stephen O'Brien of Weaver of the North Shrewsbury Ice Yacht Club requesting the club, if practicable, to arrange for him to skate 100 miles against Joseph F. Donoghue's record of 7 hours 11 minutes 38 conds. O'Brien says if he does not break the record he wants nothing, and if the record is broken he would like to receive a suitable medal. Secretary Weaver replied to the effect that the snow at present made the ice unfit for

that the snow at present made the ice unit for such a scheme to be attempted, and that in case the ice was good later on important ice yacht races would take all the available time of the club.

The ice here is nearly a foot thick and ice yachts are out every day. The snow, however, makes racing out of the question, as some parts of the club course cannot be sailed over. The skaters have a third-of-a-mile track cleared and are making the best of it.

skaters have a third-of-a-mile track cleared and are making the best of it.

An attempt was made yesterday and again to-day to sail a race between the third-class ice yachts to determine which yacht should defend the State championship pennant of that class against the representative of the Burlington Yacht Club. Yesterday there was no wind, and to-day the snowfall was so great by the starting time that only a part of the course could be sailed over.

Owing to the snow storm the figure skating championships, which were to have been held vesterday under the auspices of the South Orange Field Club at South Orange, were again postponed until next Saturday.

Poter Jackson at Odds With the Bolingbroke Club,

There is quite a row between Peter Jackson and the Bolingbroke Club of London owing to Jackson's determination to box only at the National Sporting Club. Chesterfield Goode, who is at the head of the Bolingbroke organization, is exceedingly augry at Jackson, as can be observed from the following card, which was published in the London Sporting Life of Jan. 2d:

"A perusal of the manifesto issued by Peter Jackson, the colored champion, relative to the Bolingbroke Club, is certainly uncalled for and decidedly unsportsmanlike. The Bolingbroke Club made Peter Jackson a fair and reasonable offer over the head of any and every club in this country. Moreover, the club elected the moment Peter Jackson signified his acceptance of the offer to deposit the entire amount with the Sporting Life.

"Under such circumstances it must, indeed, be strainge and unaccountable that Jackson should in a sense disparage the Bolingbroke Club so far as to decline to even respectfully acknowledge the bona fide offer of a club which has always upheld the dignity and prestige of British sport. Yours, &c...

WORK ON THE NEW CUP DEFENDER. The Bellef Is Growing Stronger at Bristot that She Will Be a Keel Boat.

BRISTOI, R. I., Feb. 2.-This has been a ver buar week at the Herreshoff works, where prep arations have been in progress for work on the eacht that will in all probability defend the America's Cup. A large number of extra men have been employed, which brings the working force almost up to that of two years ago.

Quantities of material have arrived during the week, including about sixty tons of lead in pigs. which came by rail from New York. This was carted to the works and placed in the southern portion of the yard, where it will be handy to the big melting pots. Besides this sixty tons, there were about thirty tons on hand, and all will be available for the keel of the new cup de-The work of "laving down" the new boat is

be a keel yacht there is little doubt, and what goes to strengthen this fact is that the work of making a mould for the lead keel, or outside ballast, is now in progress.

The running of the lead keel on the new yacht will all be done at once and will be about the first sign of the setual setting up of the boat. On the Colonia the lead keel was run in sections. The ninety tons of pig lead now on hand will be used to run this enormous keel, and it is estimated that it will require about twenty-four hours' steady work before it is accomplished. Through this lead will be the Tobin bronze boits, which will attach it to the keel plats.

Contractor Le Clair, who has been busy building a foundation of stone and Portland cement for the keel of the new boat to rest upon in the south shop, has finished his work. Where the boats formerly rested their immense weight caused the foundation to sink considerably, but this new foundation will remedy the matter. The new foundation will remedy the matter. The new foundation is about thirty feet long, and is sunk several feet. Capt. David Wilcox, who performed guard duty during the building of the Navahoe, Colonia, and Vigilant at the works in 1893, is at his post, and no person is allowed to enter without authority.

In the shop in which the new boat will be built he nimety-foot steam yacht Eugenie is all ready to be launched. She is seventy-two feet on the water line, and, like the Marjoric, the crew's quarters are aft. The finishing of the interfor is of polished butternut, and she is equipped with everything needed for comfortable cruising. She has a good-sized mahogany deckhouse.

Work on the big steamer in the north shop for T. R. Hostetter of Pittsburgh is progressing rapidly, and a considerable portion of the deck is laid. The crew's quarters will be forward.

The twenty-rater Niagara for George Gould is very nearly completed. She is in the south shop, where the new cup defender will be built. The deck planking is being laid, and some of the work on the inside is being done. The workmen are engaged on the Tobin bronze fin for this boat, but have not yet run the lead builb. Work on the spars and sails is also progressing rapidly.

The 30-footer for George Owens, Jr., of Boston greatly resembles the Handsell, which was sent to Massachusetts waters from these shops several years ago. The fin for Owens's boat has been completed, and the lead builb will be attached in a few days.
